

Your classroom — the coach's guide

Welcome to Sequ3nce Personal, Ben. You have your own **classroom** inside the app: your training library, your call replays, and your members — all self-serve. This guide walks the whole flow in five steps. Your login is **benjamin.byrne1@gmail.com** (password sent separately). Download the app at **sequ3nce.ai/personal/download**.

1 Open your classroom

Community in the left sidebar, then Classroom. This whole page is yours.

- Your profile card sits on top — every member who joins is counted there.
- Members find this page the same way; anyone in the app can join your classroom free.
- You carry a **COACH** badge next to your name everywhere in the community.

2 Build your training library

TRAINING

The 'Manage your classroom' strip — only you can see it.

- **New module** — a course section (e.g. "Closing Fundamentals"). Modules start as **drafts**: invisible to members until you hit Publish.
- **Add video lesson** — pick the module, name the lesson, paste any video link (Loom, YouTube, Vimeo — it must start with https://).
- Publish / unpublish / delete from the **Your modules** list at the bottom of the strip.
- Load a few modules before launch — your classroom is the first thing members see.

3 Run live coaching calls

Coaching Calls

Live group sessions with Sequ3nce coaches

Coaching Calls

Live group sessions with Sequ3nce coaches. Join live, or catch up on replays.

UPCOMING

No upcoming calls scheduled. [Schedule one →](#)

Test Classroom Call

[▶ Watch replay](#)[Delete](#)

Community → Coaching. The '+ Schedule a call' button is coach-only.

- Schedule a call and it lands on every member's Schedule automatically.
- Everyone joins the live room inside the app — no Zoom links.
- Calls are **recorded automatically**. When the recording is ready it appears on your classroom's replay shelf on its own.

4 Curate your replays

CALL REPLAYS

Test Classroom Call

Sep 1, 2026

[Watch](#)[Add to module](#)[Share with all users](#)

Each replay carries your three curation buttons.

- **Watch** — review the recording.
- **Add to module** — turn a great replay into a permanent lesson in one of your modules.
- **Share with all users** — pushes the recording to the general Training tab, visible to **every Sequ3nce member**, not just your classroom. It asks you to confirm first — use it when a call is too good to keep in the room.

5 What your members see

Watch

The member view: your card, your published modules, your replays. No controls.

- Members see published modules and replays only — drafts and manage tools are yours alone.
- New members hit **Join classroom** once; after that everything of yours is theirs to watch.
- Members can DM you from the community — expect questions.

Two housekeeping notes

Your profile card's headline and bio aren't self-editable yet — send Tyler the copy you want and it'll be set for you. And if anything looks off or breaks, tell Tyler — the platform team ships fixes daily.
